Certificate for Occupational Safety Managers (COSM) 2018

Presented by the
Safety Council of Northwest Ohio
8015 Rinker Pointe Ct.
Northwood, OH 43619

As safety professionals move along in their career path they are in need of training designed for a high-level safety manager. Therefore, the COSS administration has developed the Certificate for Occupational Safety Managers™ (COSM) program.

What is the Certificate for Occupational Safety Managers™ (COSM)

The COSM Program is intended for the safety professional that aspires for advancement with their organization and to take their safety education and skills to the next level.

The COSM program is an advanced-level safety program consisting of five 8-hour sessions.

What can I expect to learn in the COSM class?

Students must complete the following five sessions to receive the COSM certificate.

- Essentials of Safety Management
- Strategic Planning & Evaluating for Safety Success
- Managing Risk & Safety Finance
- Communicating the Safety Message
- Injury Management, Incentives and Discipline

Upon completion students will be able to:

- Practice techniques that will enhance your ability to manage the business aspects of your safety effort.
- Interface more readily with other areas of your organization that can support your efforts.
- More effectively communicate the results of your safety program with senior managers.

Students will receive intensive instruction and training that will allow them to return to their firms with readily applicable new skills to positively impact their company's safety and health program
