Top Story

Jury Convicts Owner of Georgia Staffing Company for Selling Fraudulent OSHA Training Certifications

A federal jury in Atlanta has convicted Erick Powell, a former operator and co-owner of the National Vocation Group job-staffing company, of wire fraud. A second defendant and co-owner, Ahmad McCormick, previously pleaded guilty to wire fraud.

Powell and McCormick used online job boards to advertise jobs in the housekeeping and maintenance industries that paid above-average wages. NVG falsely told applicants that they must pay a \$349 fee for federally required OSHA training before starting work in the advertised jobs. OSHA does not require such training. Hundreds of applicants paid the fee and took the course, but none of the applicants received the jobs they were promised.

When several victims complained to law enforcement, NVG relocated its offices and continued its fraudulent activities. Both defendants face up to 20 years in prison. For more information, read the Department of Justice [news release](#).

For more information on local training requirements, visit OSHA's [Training webpage](#).

Recordkeeping

Employers Must Post 300A Injury/Illness Summary Until April 30

OSHA reminds employers of their obligation to post a copy of [OSHA's Form 300A](#), which summarizes job-related injuries and illnesses logged during 2017. Each year, between Feb. 1 and April 30, the summary must be displayed in a common area where notices to employees are usually posted. Businesses with 10 or fewer employees and those in certain low-hazard industries are exempt from OSHA recordkeeping and posting requirements. Visit OSHA's [Recordkeeping Rule webpage](#) for more information on recordkeeping requirements.

OSHA's Form 300A (Rev. 01/2004)			
Summary of Work-Related Injuries and Illnesses			
<small>All establishments covered by Part 1904 must complete this Summary page, even if no work-related injuries or illnesses occurred during the year. Remember to review the Log to verify that the entries are complete and accurate before completing this summary.</small>			
<small>Using the Log, count the individual entries you made for each category. Then enter the totals below, making sure you've added the entries from every page of the Log. If you had no cases, write "0."</small>			
<small>Employees, former employees, and their representatives have the right to review the OSHA Form 300 in its entirety. They also have limited access to the OSHA Form 301 or its equivalent. See 29 CFR Part 1904.35, in OSHA's recordkeeping rule, for further details on the access provisions for these forms.</small>

Enforcement

Georgia Poultry Processor Cited for Exposing Employees to Amputations and Other Serious Hazards

Koch Foods of Gainesville, LLC., was cited for exposing employees to amputation hazards; and failing to provide fall protection, identify which employees were using hazardous energy control locks, and train employees exposed to noise hazards. Proposed penalties total \$208,977. OSHA conducted the inspection as part of its [Regional Emphasis Program for Poultry Processing Facilities](#). Read the [news release](#) for more information.

Goodyear Cited for Endangering Employees at Georgia Tire Facility

OSHA cited Goodyear Tire & Rubber Co., for failing to: provide personal protective equipment to employees exposed to burn hazards; implement procedures for controlling hazardous energy during equipment maintenance activities; and caught-in hazards from unguarded machines. Proposed penalties total \$69,058. For more information, read the [news release](#).

Illinois Pallet Manufacturer Cited After Employee Injured by Machine

New Lenox, Ill., pallet manufacturer, Supplyside USA, was cited after an employee was injured while performing equipment maintenance. OSHA inspectors determined that the company, which operates as Prime Woodcraft, Inc., failed to install machine guards, implement energy control procedures to prevent unintentional machine operation, train employees on noise hazards, and prevent dust accumulation on surfaces. Proposed penalties total \$91,832. Read the [news release](#) for more information.

Florida Construction Company Cited for Exposing Employees to Fall Hazards and Eye Injuries

OSHA has cited Action Concrete Construction, Inc., for exposing its employees to fall and eye hazards. Following an investigation of the company's Panama City Beach, Fla., worksite, inspectors identified one willful violation for failing to install guardrails or use personal fall arrest systems while employees worked at a height of 11 feet. A second citation was issued for allowing employees to use a pneumatic air gun without proper eye protection. Proposed penalties total \$59,864. For more information, see the [news release](#).

Washington Cites Hotel Owner for Safety and Health Violations

The [Washington Division of Occupational Safety and Health](#) (DOSH) issued \$355,000 in fines to the owner of the Seattle Pacific Hotel for knowingly exposing workers to asbestos hazards during lobby renovations. DOSH inspectors concluded that the hotel owner failed to inform, train, and certify workers on the hazards associated with asbestos removal.

Inspectors issued an immediate stop-work order when the hazards were detected, and they determined that the owner also failed to sample the air prior to renovations, remove unmitigated asbestos debris from the site, and provide adequate respiratory protection. For more information, read the [news release](#).

Minnesota Cites Excavation Company Following Worker Fatality

[Minnesota OSHA](#) issued \$75,000 in penalties to [Tom Baures Excavating, LLC.](#), in Minnesota City after a worker was fatally crushed by a lowering tow truck box. Inspectors determined that the company failed to adequately train workers, and ensure that safe lockout-tagout procedures were developed and followed while workers were servicing the truck.

OSHA Outreach

Webinar Launches Grain Engulfment-Prevention Campaign

More than 300 industry members and OSHA personnel participated in a [Jan. 17 webinar](#) on how the proper handling and storage of grain prevents engulfment and other potential hazards. The webinar, sponsored by [OSHA and National Grain and Feed Association Alliance](#) in collaboration with the Grain Elevator and Processing Society and American Feed Industry Association, is part of this year's [Stand-Up for Grain Engulfment Prevention Campaign](#) that will continue this spring, with a focus on other events planned April 9-13.

Safe + Sound Campaign: Show Your Workers Some Love by Committing to Safety and Health

Workers are the heart of every business. Show you care that they go home safe and sound every day by making a commitment to safety and health in your workplace. You can get started by:

- Scheduling a safety walk-around. OSHA's new fact sheet, [Safety Walk-Arounds for Managers](#), provides suggestions for conducting inspections that can help you evaluate the effectiveness of your current safety and health efforts, and communicate directly with workers about job hazards.
- Attending the Safe + Sound Campaign's first live, free webinar, Foundations for Safety Leadership, hosted by CPWR: The Center for Construction Research and Training on Wednesday, Feb. 21, at 2 p.m. EST [[register now](#)]. This webinar can support your efforts to become an effective safety leader and create a strong culture of safety.

Cooperative Programs

Injury Rates Plummet at Louisiana Manufacturing Site with Help from OSHA

James Machine Works, LLC., contacted OSHA's [On-Site Consultation Program](#) for help identifying workplace hazards at the Monroe, La., facility where it manufactures storage tanks and pressure vessels for the petrochemical, paper, and energy industries. After an initial consultation, the company corrected all identified hazards, and continued to work with consultants to develop a workplace safety and health program. Over the course of four years, JMW's rate of recordable injuries dropped by nearly 80 percent – seven times lower than the average injury rate for this high-hazard industry. Because of these efforts, JMS has been designated a [Safety and Health Achievement Recognition Program](#) participant. For more information, read the company's [success story](#).

Dallas Company Partners with OSHA to Ensure Worker Safety at Two Construction Sites

OSHA and Holder Construction Company, Inc., entered into [strategic partnerships](#) to protect workers during the construction of an office building and a parking garage in Ft. Worth, Texas. The goals of the partnerships are to eliminate serious workplace hazards, prevent work-related injuries and fatalities, and develop an effective safety and health program. For more information, read the [agreements](#).

Colorado Association Renews Alliance to Protect Health Care Workers

The [Colorado Health Care Association](#) (CHCA) renewed a [four-year agreement](#) with OSHA's Denver and Englewood offices to create safer workplaces for employees in long-term care nursing facilities. The alliance focuses on musculoskeletal disorders related to patient and resident handling; bloodborne pathogens; tuberculosis; slips, trips and falls; and workplace violence hazards. CHCA and OSHA will work together to provide training and education on the industry's most prominent hazards, and share information on best practices in hazard prevention.

Safety and Health Resources

Free Webinar on Silica Exposure Available March 5-9, 2018

OSHA and OSHA Education Centers in Louisiana, Oklahoma, and Texas, are offering a free WebEx presentation on silica hazards from March 5 to 9. The one-hour webinar will focus on compliance with the OSHA standard for silica in the construction and general industries, and best practices for prevention. Register [here](#).

Prevent the Spread of Seasonal Flu

As cases of flu remain high across the country, proper precautions must be taken to keep workers healthy. OSHA's [Seasonal Flu webpage](#) provides basic precautions that should be used by [employers](#) and [workers](#) in all workplaces, such as frequent hand washing, and covering coughs and sneezes. OSHA also recommends that health care professionals follow infection control practices; use gloves, gowns, and other protective equipment to reduce exposures; and encourage sick workers to stay home.

OSHA Closing Resource Center Video Loan Program

OSHA is ending its [Resource Center Video Loan Program](#) on Feb. 15, 2018. Videos on workplace safety and health are now available on OSHA's [Videos webpage](#).
