PRESENTER

Bob Nicholson
NFPA Certified Electrical
Safety Professional

**How to Qualify
Electrical Workers for
ARC FLASH &
Shock Hazard
NFPA 70E
Classroom Training**

**Wednesday,
Sept. 25, 2024
8:00 am – 3:00 pm**

**Review of
Significant Changes
in the NEW
NFPA-70E**

This electrical safe work practices course aids in the steps to help Qualify an employee under the following:

**NFPA 70E 2021 Article
110.2(A)(1)
and
OSHA 29 CFR Sub Part S
1910.331-335, 1910.399**

The course provides general knowledge and understanding of the existence, nature, causes, and methods to prevent electrical hazards.

WHO SHOULD ATTEND?

OSHA 1910.331/1910.399 requires employers to evaluate and document company employees who perform, or who have potential to perform work on energized, or potentially energized electrical equipment.

- ✓ Electrical Trades Personnel
- ✓ Supervisors
- ✓ Engineers
- ✓ Safety Managers
- ✓ **Any employee** who needs to be determined by the Owner as a qualified electrical employee working on energized electrical equipment.
- ✓ **Safety personnel** who need help to Qualify their employees

INSTRUCTION INCLUDES

- Training on arc flash & shock hazard awareness
- Standards and codes
- Understanding of arc flash energy values
- Selection and use of appropriate PPE
- Reading & following warning signs/labels
- Methods to reduce risk while working on live exposed parts
- Arc flash & shock hazard assessments
- Safe work practices documentation
- Basic elements of how to Qualify your employees
- Employer's on-site electrical task training requirements to determine your employee is Qualified to perform energized work.

**Review of Significant
Changes in the NEW
NFPA-70E**
