DOT HazMat Training

All personnel responsible for packaging, labeling, transporting, placarding, and completion of shipping papers for Hazardous Materials shipments is required to be trained at least once every three years. If you ship Hazardous Materials or Hazardous Wastes from your facility, you **MUST** receive DOT training at least once every three years. This includes General Awareness training, Function-Specific training and Safety training. You must complete a written test demonstrating knowledge of the material as a record for DOT.

This 4-hour course will instruct students on the following:

- ⇒ How to use the Hazardous Materials Table, Determine the Proper Shipping Name, Hazard Class, Packing Group and Interpret the Special Provisions to the List of Hazardous Materials
- ⇒ The difference between a Hazardous Material, a Hazardous Substance and a Hazardous Waste and Appendix A to 49 CFR 172.101 – the List of Hazardous Substances and RQ's
- ⇒ Marine Pollutants – Appendix B to 49 CFR 172.101
- ⇒ How to prepare Hazardous Materials Shipping Papers
- ⇒ How to determine Hazardous Materials Packaging Requirements
- ⇒ How to properly mark and label Hazardous Materials packages
- ⇒ How and when to placard Transport Vehicles that Require Placarding *and more...*

This class will provide the necessary training for employees who ship Hazardous Materials or Hazardous Wastes. Includes a 2016 DOT Hazardous Materials Compliance Pocket Guide, DOT Chart 15, Large spiral bound 2016 ER Guidebook, DOT PowerPoint workbook, a laminated wallet card, testing and certification.

Presented by

Thomas K. Wray,
CHMM, CET

Tom has been involved in the Safety, Health, and Environmental field for over 30 years, having started his career with the Ohio EPA in 1980.

- ⇒ Tom is presently the owner and president of Waste Away Services and Professional Environmental Trainers Association. Waste Away Services is a hazardous waste management firm founded in 1986 and located in Toledo, Ohio.
- ⇒ Tom also provides safety, health, and environmental training and consulting. Since 1984, he has taught courses in hazardous materials chemistry, OSHA, DOT, and EPA regulations. Tom is an authorized trainer for OSHA Construction Industry standards.
