## Certificate for Occupational Safety Managers

The COSM program is designed to support your efforts in assessing the effectiveness of your safety management system and gaining recognition for it along with the opportunity to learn from and interact with safety professionals who exemplify the best in safety management.

You will learn proven executive safety management skills and competencies designed to strengthen and improve your safety management effectiveness and results.

**Upon completion students will be able to:**

- Practice techniques that will enhance your ability to manage the business aspects of your safety effort.
- Interface more readily with other areas of your organization that can support your efforts.
- More effectively communicate the results of your safety program with senior managers.

**COSM Topics Include:**

- Essentials of Safety Management
- Strategic Planning & Evaluating for Safety Success
- Managing Risk & Safety Finance
- Communicating the Safety Message
- Injury Management, Incentives and Discipline

**In order to receive the final COSM certificate you must meet the following criteria:**

- Complete all five days
- Turn in all completed assignments
- Have a minimum of two (2) years safety, health and environmental work experience
