## Training Opportunities Flyer MARCH and beyond 2022

Three experts will take the stage at the 2022 Ohio Safety Congress & Expo (OSC22). BWC Administrator Stephanie McCloud will be joined by Michael Bonner, teacher of the year and author, and Scott

Miller, Special Advisor on Thought Leadership for FranklinCovey Company. McCloud will share her vision for the Ohio Bureau of Worker's Compensation and the programs and services that support Ohio's employers and workforce. Bonner will break down important principles of environment and culture, the importance of purposeful collaboration, and how self-development can create a higher level of performance.

Miller will share challenges from his own experiences as a leader with guidance for learning from mistakes to produce results and achieve the goals you hope for. McCloud and Bonner will speak on March 9. Miller presents on March 10. To find more information on the dozens of free educational sessions available during OSC22 <u>visit our website</u>.

Registration is free. We'll see you online!

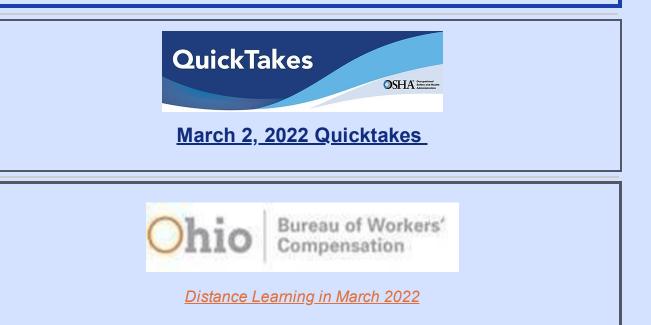

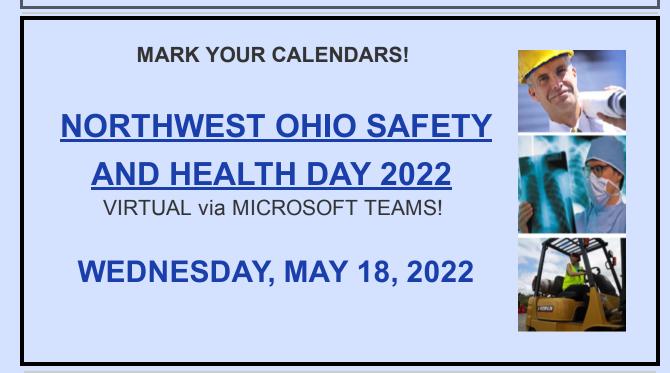

## A MENTAL WELLNESS RESOURCE TO HELP MANAGE STRESS

Courtesy of David Varwig

As technology creates more stress, it may also provide us with unique tools to help reduce stress. Attached is a one sheet <u>Safety & Health Share</u> on an app that can help you manage stress. As you read it, think in terms of small, incremental actions resulting in big longer term improvements. At the heart of these stress management techniques are control of our personal responses to it and a clearer perspective on the causes, so you can better control your reactions to them. I do not intend this as a product endorsement of NOOM Mood but simply exposure to "what's out there"

that you may leverage to your own best advantage for improved personal well-being.

## PAY YOUR INVOICE ONLINE!
